4 of 4 review helpful I really enjoyed this book By Baylie This book is extremely helpful when you are learning C I wish I could keep it longer The only irritation is sometimes the layout of the C examples is a little confusing but that is because the examples are longer than a single page If you can I suggest the online edition that can make things a little

easier Overall I really enjoyed this book 2 of 2 re Tony Gaddis rsquo s accessible step by step presentation helps beginning students understand the important details necessary to become skilled programmers at an introductory level Gaddis motivates the study of both programming skills and the C programming language by presenting all the details needed to understand the ldquo how rdquo and the ldquo why rdquo ndash but never losing sight of the fact that most beginners struggle with this material His approach is b Great coverage and examples mdash Ronald Conway Bowling Green State University I think one of the great strengths is the inclusion of all of the source code files throughout all of the chapters Also the variety of supplemental resources VideoNote
