By Tony Gaddis, Judy Walters, Godfrey Muganda : Starting Out with C++: Early Objects Plus MyProgrammingLab with Pearson eText -- Access Card Package (9th Edition) Starting Out with C++: Early Objects Plus MyProgrammingLab with Pearson eText -- Access Card Package (9th Edition):

2 of 2 review helpful Great Textbook for Introductory C Programming By C R Capps I used this book for my Intro to Computer Science class at Oregon State University I think the book definitely helped my understanding of the material and provides clear code examples As this was my first real experience with programming the book is at an appropriate

level of understanding for beginners While the book does use C it also NOTE Before purchasing check with your instructor to ensure you select the correct ISBN Several versions of Pearson's MyLab Mastering products exist for each title and registrations are not transferable To register for and use Pearson's MyLab Mastering products you may also need a Course ID which your instructor will provide nbsp Used books rentals and About the Author Tony Gaddis is the principal author of the Starting Out With series of textbooks He is a highly acclaimed instructor with two decades of experience teaching computer science courses primarily at Haywood Community
