7 of 7 review helpful Why overcomplicate things By Burak Selcuk Soyer It is almost impossible to make everybody happy when presenting a book for the public This one is a good example for making things more difficult than it is

normally Separating interface from implementation is not an arduous problem in C there are a few techniques for doing this like opaque pointers or the pimpl idiom What is actually exhibited in thi creating reusable software modules they are the building blocks of large reliable applications Unlike some modern object oriented languages C provides little linguistic support or motivation for creating reusable application programming interfaces APIs While most C programmers use APIs and the libraries that implement them in almost every application they write relatively few programmers create and disseminate new widely applicable APIs C Interfaces and Impleme From the Back Cover Every programmer and software project manager must master the art of creating reusable software modules they are the building blocks of large reliable applications Unlike some modern object oriented languages C provides little linguis
