**By Irv Kalb : Learn to Program with Python** learn to program the fundamentals from university of toronto behind every mouse click and touch screen tap there is a computer program that makes things happen python introduction for beginners learn complete python from scratch Learn to Program with Python:

8 of 9 review helpful A solid starter for all beginners wanting to initiate a career in computing By christian sasso

Disclaimer I read a pre publication copy of this book and I personally know the author Irv has experience with Python both as a college level teacher and as a practitioner for instance he has led a robotic team that qualified for the VEX Robotics World Championships four years in a row throu Get started in the world of software development go from zero knowledge of programming to comfortably writing small to medium sized programs in Python nbsp Programming can be intimidating especially when most books on software require you to know and use obscure command line instructions but it doesn rsquo t have to be that way In Learn to Program with Python author Irv Kalb uses his in person teaching experience to guide you through le From the Back Cover
