By Peter Baumgartner, Yann Malet : High Performance Django oct 05 2011nbsp;get django djangos new album httppostbornundersaturn stream born under saturn here httppostbornundersaturnstreaming django djangos new every wednesday nighta sketch club a life drawing session happens in the django bar with evocative live music from a bevy of outstanding musicians one High Performance Django:

1 of 1 review helpful to catalog all the best practices It was a little advanced for me By John Kawakami This is a cookbook about how to set up and manage a high performance Python based appserver environment It fills a need to catalog all the best practices It was a little advanced for me but instructive because it gave me some perspective on the

issue of larger scale appserver deployments that are composed of dispar Getting started with Django is easy There are tutorials and books that literally walk you through the process of getting your first site up and running Taking that code from your laptop to the real world is like opening pandora rsquo s box Should I use Apache Gunicorn uWSGI or something else Where should I use caching to make things faster How do I know if my database has the right indexes or if it needs mor
