116 of 119 review helpful This is the perfect introduction to hands on electronics By Sammy I am about a third of the way through this book and I am loving it This is the perfect introduction to hands on electronics I was an engineering student in college although not electrical engineering so I was always kind of upset that after spending countless nights of my life doing all sorts of crazy math problems with respect This is teaching at its best Hans Camenzind inventor of the 555 timer the world s most successful integrated circuit and author of Much Ado About Almost Nothing Man s

Encounter with the Electron Booklocker com A fabulous book well written well paced fun and informative I also love the sense of humor It's very good at disarming the fear And it's gorgeous I'll be recommending this book highly Tom Igoe About the Author Charles Platt is a Contributing Editor and regular columnist for Make magazine where he writes about electronics He is the author of the highly successful introductory hands on book Make Electronics and is writing a sequel to that book
