By Pablo Martin Mulone, Alejandro Reingart, Richard Gordon, Massimo Di Pierro, Bruno Cesar Rocha, Michele Comitini, Jonathan Lundell, Thadeus Burgess : web2py Application Development Cookbook  
bibliography jesus garcia and anthony de moss mitchell simoens sencha touch in action isbn 978 1 61729 037 4; ajit kumar sencha touch cookbook django d o jang goh is a free and open source web framework written in python which follows the model view template mvt architectural pattern web2py Application Development Cookbook:

10 of 10 review helpful Very good but flawed By Aaron I found this book to be extremely helpful with learning the web2py framework It got me over the hump in my web2py learning curve and as a result my app development time has shortened from days to hours For the price I paid I would have been happier with more recipes and better editing

and quality control For example the article on components on page In Detail About the Author Pablo Martin Mulone is a full time web developer and software designer He co runs his own company located in Argentina which is dedicated to bring IT solution to libraries archives and government in matter of documentary preservation He has
